
Possible Armageddon Scenarios

So far in this book we have talked about terrible things related to our clear growing global enslavement, and about a set of cumulative reforms and solutions to gain back our liberty from this global enslavement. We have avoided talking about this growing global enslavement in terms of a possible scenario of Armageddon. We have not done so as a pure fantasy, and not either as a well-detectable concrete possible scenario. But describing a possible future of Armageddon in light of what is going on today is not at all a totally unfounded fantasy.

Considering what the [FastCABAL](#) ([F](#)ake [A](#)brahamic [S](#)atanic [T](#)echnocratic [C](#)ABAL) of only two of the many fully [GURUC](#) ([G](#)lobal [U](#)nelected [R](#)ed-technocratic [U](#)naccountable [C](#)abal) international organizations have done, using the [WEF](#) ([W](#)orld [E](#)conomic [F](#)orum) and the [WHO](#) ([W](#)orld [H](#)ealth [O](#)rganization), and done recently most easily and very successfully, it is not a virtual fantasy. The [FastCABAL](#) has recently forced all and each of our democratic and non-democratic national governments around the world, in particular in the last 4 years, to mask uselessly and ridiculously all their respective populations into a state of total submission and silent obedience. They have even done so while injecting most destructive and often deadly bioweapons called vaccines (for [COVID](#)) into the rest of us, all of it while pushing for transhumanism in a global environment already fully invaded by all sorts of satanic symbols. During the last 4 years, we have lived the worst period of [SEGWO](#) ([S](#)atanic [E](#)nslavement [G](#)lobal [W](#)orld [O](#)rders) so far. In light of the above alone, it is not unrealistic at all to think about possible horrific scenarios of Armageddon coming to us soon.

Consequently, we will try very legitimately to define the two most probable scenarios of Armageddon. They are both based on some fantasy and speculation, but fantasy and speculation based on the best possible predictions of the coming steps of the [FastCABAL](#) strategy, somewhat like the prediction of the worst possible following moves of an opponent chess player pursuing check mate against us, or Armageddon in this case. The first Armageddon scenario that we will describe will appear to be the less dramatic one in the short run, at least in terms of material destruction, but the worst in the long run, because it will lead the rest of us to our full final global enslavement under a dictatorial **One-World-Government** of a reinforced kind of Communism, or rather [GlobCommunism](#), that could last in power for many generations to come. The second Armageddon scenario that we will describe will appear to be more catastrophic in the short run, at least in terms of material destruction, but its major physical destruction will also leave a door open to a new era of growing liberty for the future generations.

An apparent minor Armageddon but leading to our global enslavement

This first Armageddon scenario is apparently less dramatic because it is not nuclear. It is based on the following harsh reality. The [FastCABAL](#) of the [USA](#), the country that is still the main brute world superpower, along with its subordinate minion power called the [EU](#) that is geographically placed in between the [USA](#) and **Russia**, cannot risk a nuclear war against **Russia** because they know they, the [USA](#), would themselves be first completely destroyed, while **Russia** would still be greatly spared a complete destruction. The [USA](#) has more nuclear power than **Russia**, but only in quantity. It has much less nuclear power in quality or sophistication compared to **Russia**. Independent experts claim that **Russia** can at will deviate its own intercontinental nuclear missiles after launching them, and make them go after coming foreign nuclear missiles to

explode them before their arrival in **Russia**. Geographically, in most cases, these explosions would mostly take place catastrophically over the [EU](#). This is what the [USA](#) can still not do with its own intercontinental nuclear missiles after their launching. This is also probably the reason why, in its pursuit of a global government, the [NATO/USA/EU](#) coalition has not yet decided to use its inferior nuclear missile against **Russia** in the current fake proxy war against **Ukraine**, only using instead **Ukraine** as a useful idiot for a proxy war to hopefully destroy **Russia** by exhaustion for disturbing and delaying their pursuit of global governance.

In this first scenario, **Russia** will be destroyed but, again, only by economic and military exhaustion, along with the contemplated assassination of **Putin** and a regime change in **Russia** through a “color revolution” coup. In the [structure of forces of the New World Order](#), this will mean the victory of the **White Brotherhood** of the [FastCABAL](#) (best represented at the moment by a **Biden** of the **Democratic Party** of the [USA](#) backed by its immense Zionist lobby and **Israel** itself) instead of a victory of the **Black Brotherhood** (best represented by an outsider of the **Republican Party** like a temporary defenestrated **Trump**).

But what few people realize, in the master plan of global governance of the **White Brotherhood**, the [USA](#) is also programmed to fall through various means, as soon as possible, as the [FastCABAL](#) does not want to establish their forthcoming **One-World-Government** in the [USA](#), not even in the [EU](#), but in a contemplated [Greater Israel](#) as soon as possible. For such a global government to be based in [JerUSAlem](#), the [USA](#) must eventually fall and, in the meantime, can only be used as a useful idiot by the [FastCABAL](#) to destroy disturbing powers like **Russia**. For the [FastCABAL](#)'s master plan of global governance to be completed, there can be no other super or middle power based in **Washington** or anywhere else.

The main non-nuclear means for this fall of the [USA](#) is well programmed through the progressive abandonment of the petrodollar as the world reserve currency, which use was granted as a favor to the [USA](#) for already too many years by the oil producing Arabian Islamic countries. Its progressive abandonment has already started by both the [BRICS](#) ([Brazil](#), [Russia](#), [India](#), [China](#) and [South Africa](#)) group of countries but also, as of very recently and at least partially, even by the Arabian countries, by **Saudi Arabia** in particular. In front of this harsh reality, part of the [USA](#) will inevitably react, mainly those of the **Black Brotherhood**, but the **White Brotherhood** is stronger and will win. Needless to say that this fall of the [USA](#) will also bring necessarily the fall of the [EU](#). Its fall is also well planned, and the [EU](#) is already shaking to its coming fall, in particular since after the **BREXIT** of the [UK](#).

Although well planned, this total economic destruction of the [USA](#) through killing the petrodollar will deceitfully lead to the destruction of the Arabian Islamic countries. This destruction will be interpreted as a kind of **WWIII**. For the dominating Zionist component of the [FastCABAL](#), this will in fact be the fulfillment of the **WWIII** prediction of the [Protocols of the Elders of Zion](#) of 1903, and more clearly in particular the famous related letter of [Pike to Mazzini](#) of 1871. This letter of 1871 between the two most prominent Zionist and Freemasonic members of the [FastCABAL](#) of that time was predicting three world wars. The first two have already happened exactly as predicted in that letter. But according to this infamous letter of 1871, a **WWIII** will also have to be fought for the final Armageddon, and fought between Zionism and Islam.

Of course, “**Zionism**” here does not mean only the new Zionist state of **Israel**, but the whole of the Zionist world which is best represented by the [USA](#) that, for all practical purposes, has become the powerful Zionist colony of its powerful Zionist master called **Israel**. Just like what Zionist [USA](#) is doing by proxy in **Ukraine** in 2024, avoiding a too self-destructive nuclear war against **Russia**, in order to also protect the useful productivity of its eventual worldwide serfdom,

the Zionist leaders of the [FastCABAL](#) will also avoid a nuclear war when time comes for Zionism to fight Islam as per the above **WWIII** prophecy through the destruction of the Arabian countries.

In fact, for destroying the Islamic countries of the Arabian Peninsula, other means than nuclear bombs will be used by Zionism to attempt to destroy **Islam**. These countries are located mostly on the Arabian Peninsula that, by now, is dangerously and hugely excavated underground. It is full of immense empty vacuum spaces caused by extracting billions of barrels of oil each year. The vacuum of these immense underground empty spaces is also intended to be used to collapse the peninsula without nuclear arms, possibly with the help of new weapons like [DEW](#) and other new secret weapons from the infamous [HAARP](#) that can already affect geophysical nature in many dangerous ways, like creating at will tsunamis and earthquakes in specific places.

If the [USA](#) were to use its less sophisticated nuclear arms to destroy the Arabian Peninsula, this could provoke **Russia** to react with its own more sophisticated nuclear arms against the [USA](#). But in this case, nuclear arms are not necessary. As mentioned already, brand new non-nuclear tools are available with incredible destructive power, like the immense vibrational power of [HAARP](#) and [DARPA](#) that can damage vast geographical area worldwide through earthquakes and tsunami, along with the use of [DEW](#) (Directed Energy Weapon) that can damage very specific places in a similar way. These new nonnuclear arms are capable of taking advantage of the immense empty spaces under the peninsula, for swallowing or submerging most of the peninsula under the Red Sea and the Arabian Sea. Other complementary non-nuclear tools like the [EMP](#) (Electro Magnetic Pulse) will also have been used simultaneously, or to previously prepare the easier defenseless collapse of the peninsula, by first collapsing its electrical and electronic grids ahead of time.

But according to this first Armageddon scenario, the Zionist [NATO/USA/EU](#) coalition will also destroy **Russia**. This will be done by exhaustion to start with, through wars like the current one in **Ukraine** and many others to come around **Russia**. If the master plan works, it will also be done by the following assassination of **Putin**, and finally by a Russian color revolution with a complete regime change in **Russia** becoming also entirely submitted to world Zionism.

In short, the [USA](#) itself will fall by the killing of its petrodollar. The [EU](#) will follow the same path because it is too submissive and dependent on the [USA](#), and because of the partial destruction of some of its countries in Eastern Europe in the context of the **Ukraine** war. **China** will also fall because it will not have any more market for its products in the [USA](#) or the [EU](#) from which to profit, let alone be without its rich market in the falsely rich Islamic world. In fact, the **Islamic World** will at least fall through the collapsing of parts of the Arabian Peninsula. During that period **Israel** will easily finally acquire furtively various pieces of foreign land to create the [Greater Israel](#) from the Nile to the Euphrates, taking pieces from **Syria**, **Iraq**, all of **Lebanon** and the northern part of **Saudi Arabia** up to the Persian Gulf. In the meantime **Russia** will also have fallen through mainly economic and military exhaustion. In short, there will be only one world power left, the power of the **Judaic World** as the “**Chosen People**” destined to enjoy a vast global serfdom of subservient slaves at its full service. At least, the above scenario is mainly what the [FastCABAL](#) hopes will happen.

In other words, on the basis of this first Armageddon scenario, we will have a brand new dictatorial **One-World Government** managed by the [FastCABAL](#), with the rest of us as useful and obedient slaves. Finally the Zionism of the biblical “**Chosen People**” will finally reign sovereignly, as per the prediction of the Bible, over the rest of the whole world for finally implementing its long last aspired era of [Pax Judaica](#), with its new world power firmly established in the new [JerUSAlem](#) of the new [Greater Israel](#). If it takes place, this first scenario of Armageddon led by

the [FastCABAL](#) will be less dramatic than the following one, because it is not nuclear, but for the rest of us, it will nevertheless lead to the worst kind of our final global enslavement in what we can only call the [SEGWO](#) (Satanic Enslavement Global World Order) of the [FastCABAL](#) (Fake Abrahamic Satanic Technocraic CABAL).

A more drastic Armageddon but with an open door to a new era of liberty

This second scenario of Armageddon also led by the [FastCABAL](#) (Fake Abrahamic Satanic Technocratic CABAL) is more dramatic in terms of physical destruction because it is partly nuclear. Nevertheless, it will give us a bit of hope for an eventual liberation from our final global slavery. It will leave open a back door leading to a possible brand new era of liberty and better world happiness through what we can call the slow but strong renaissance of a new era of [Pax Ellinika](#) instead of a [Pax Judaica](#). These two cultural forces of have been fighting each other for millennia. In the first Armageddon scenario the [Pax Judaica](#) is the winner, but in this second scenario the [Pax Ellinika](#) is finally the winner.

The main change from the previous first scenario is that Zionism will not succeed to destroy **Russia** for the second time, like it had done a first time during the **Soviet Union**. Instead, **Russia** will have won its war in **Ukraine**, which will rather be the winning of the proxy war of the [NATO/USA/EU](#) coalition of the [FastCABAL](#) meant to destroy **Russia** for the second time. But **Russia** will have been forced to use at least some of its tactical nuclear arms to combat and prevent the previous scenario of final global enslavement, which was all along a scenario that was very well known to **Putin**, and to also combat other regional wars similar to **Ukraine** caused by additional provocation of the Zionist [NATO/USA/EU](#) coalition attempting to surround and crush Russia.

Consequently, in this second Armageddon scenario, much more destruction through tactical nuclear arms will have happened in part of **Europe**, and near or around **Russia** and **Ukraine**. There will have been no useful need to destroy physically all of **Europe** and the [USA](#). But the rest of the **Europe** not affected by the tactical nuclear arms of **Russia** and the [USA](#) will both have become insignificant in terms of world power. As such, the [EU](#) will be entirely dismantled. The [USA](#) will have been economically fully destroyed anyway without nuclear arms through the sole killing of the petrodollar. The Islamic world not collapsed or submerged under the Arabian see will have been sent back to its previous past of pre-oil poverty. Because of the tactical nuclear arms of **Putin**, **Israel** will not have been able to build its contemplated [Greater Israel](#). In other words, Zionism will have destroyed Islam, as per the [Zion Prophecy](#), but will not have gain world power. In fact, in this second scenario of Armageddon, in which Zionism is not the winner, **Israel** itself will become entirely powerless, and is likely to even be dismantled for first the benefit of the native Palestinian populations, and second the benefit of the rest of us not being caught anymore in the grips of the [FastCABAL](#) pursuing a dictatorial **One-World-Government**.

The result will be that the new **Russia**, with or without **Putin**, and not Zionism, will become the main surviving world power. But **Russia** is and will stay essentially a Christian Orthodox country as opposed to a Catholic country. For this reason, its survival will be based on a renewal of the best of that culture to start with. As such, it will likely not be on the basis of the fake **Jesus** that the highly deviated and corrupted Catholic Church has deformed and falsely made a Jew. In the context of the overall Christianity, this Judaic deformation of **Jesus** is particularly true on the part of the Catholic Church that has been completely under the control of deceitful Judaic forces

since the [Vatican Zionist Coup of the Council of Vatican II](#) in 1962. [The real Jesus, as a Nazarene, was not Jewish](#), but an [ELL](#) (“Greek” Palestinian) figure. As such this real **Jesus** is much more close to the purer Russian Orthodox Church than to the Catholic Church or the Protestant denomination. Consequently, the new culture of **Russia** as the new world power will be based on the one of that god, the real **Jesus**. He is the only “Western” god who only talked about truth to gain liberty, about compassion to achieve peace and happiness, about forgiveness, and never requested any kind of massacres or wars to achieve world power over others, like the god **Allah** or the Koran of Islam and the god **Yahve** of the Bible of Judaism do constantly in their respective holy books. This is the only religion of a god compatible with [FtakAristarchy](#), acceptable as [JesusELLism](#).

In other words, this new world power led by the new **Russia** will be based on the best values of the ancient Greek culture that invented democracy, philosophy, holistic virtuous education, the Olympics and the rest of its beautiful [Philotimo](#). The restart and renaissance of this magnificent culture of democracy and liberty will be slow after the immense destruction of the above **WWIII** lost by Zionism, but will be on the right tracks to finally open a brand new era of freedom and happiness like there has not been one in many centuries.

The second Armageddon scenario is probably the most likely one to inevitably happen in the near future, and certainly the better of the two. Some insiders to the secrets of **Fatima** even say this is exactly the Armageddon scenario that we shall enjoy worldwide. True or not, such better future shall certainly cause the slow but sure “**Great Return of Philosophy and Beauty**” in our life, both in our personal life and in our civic life, and “**The Sacred Marriage of Science with Philosophy**”. Hopefully this shall be the beginning of a new world era of “[Pax Ellinika](#)”, with the propagation in as many national countries as possible of the best form of democratic governance that, in the context of this book, we call [FtakAristarchy](#).

The **Great Return of Philosophy and Beauty** through [FtakAristarchy](#) and an ensuing new era of [Pax Ellinika](#) means the return of political power into the hands of the **Enlightened Many**, taking it away from the hands of the **Evil Few**. With or without Armageddon, we have first to recognize that we have been enslaved. This was the subject of [Part I](#) of this book. But Armageddon cannot happen without us allowing it to happen. Enslavement cannot happen unless we allow it to happen. The **Enlightened Many through Truth, Beauty and Philosophy** through the cumulative reforms of [FtakAristarchy](#) can and must now become an absolute political power leading the world to its best form of freedom and happiness. This was the subject of [Part II](#) of this book.

Improved forms of language communication at two levels can also help immensely to achieve this objective of full liberation. This is the subject of [Reform 24](#) of this book. Better approach of human sexuality are other reforms through which we shall allow all of us to enjoy more fully and pleasantly the above objective of full liberation. In the meantime we have to release our current submissive spirit of victimhood or submission to the [FastCABAL](#) enslaving us, and take full responsibility for our best future of freedom and happiness, with each of us being the combination of a [PICCOB](#) ([Promethean Idyllic Co-Creator Of Beauty](#)), a [DEWBOCIM](#) ([Do Everything With Best Of Country In Mind](#)) and a [FTAKAP](#) ([Full Truth And Knowledge Aristarchy Promoter](#)) for the full success of [FtakAristarchy](#) in as many countries as possible as soon as possible.
