## Bibliography

In the table below, you will find only the main authors mentioned or quoted directly in the full book about [FtakAristarchy](#). The list includes both books useful in a positive way in order to understand our present situation (like the one by **Blumenfled**) and what needs to be changed to reform our governance, and books important in a negative way about what to avoid in order not to reform it in a satanic way (like the very first one by Saul **Alinsky**).

However, this book has also many links to various pages of various websites of, or related to, the **PythagorArium Project** and its promotion of [FtakAristarchy](#). They provide a lot of additional information where many other authors are listed, quoting in fact over 200 books.

- In the original draft, most book covers are shown, and you can see them with some additional notes by clicking on the “**SEE**” column on the right side of the table. If the year of publication is followed by a “\_”, it means that the cover is not shown, and only the book title and author are quoted in the text.
- However, in this Synthesis, the “**SEE**” links of the right column will not work.
